DR. JOHN BULL'S
Great Remedies.

DR. JOHN BULL'S
Concentrated Extract of
BUCHU
COMBINED WITH
Bromide of Potassium.

Purchase a Bottle and carefully read directions.

BUCHU is a stimulant, and of itself may fall to effect a cure, but Buchu when combined with Bromide of Potassium and other ingredients, produces a sedative effect, and causes a healthy action, thus increasing the power of digestion, and inducing the system to be more robust, and thus preventing decomposition and decay, and gives nourishment, health and vigor to the system.

My Buchu is good for all diseases arising from excess, such as Weakness, and Pain in the Back and Legs, and all the various ailments of the system, such as Headache, Dizziness, Nervousness, Palpitation, Constipation, Dryness of the Skin, Scrophulous Syphilis, in its many forms, Ulcers, and Tumors.

If your system is affected by any of the above symptoms, and you desire relief, get a bottle of my Buchu and Bromide of Potassium at once and you may rely on being cured.

I know just what I say. My record as a Compounder of Medicine is second to no man in the Southwest.

Twenty-five or thirty years ago, I was a young man, and I have found me behind the prescription counter in the city in which I now dwell. I have cured more people of various diseases than all the physicians in Louisville put together. Undoubtedly, for every single patient that I have cured, I have a name to prove it.

My reputation as a compounder of good, reliable medicine is fully established.

I believe my Buchu and Bromide of Potassium is the best medicine in the market for the cure of all diseases of the system, such as Headache, Dizziness, Nervousness, Palpitation, Constipation, Dryness of the Skin, Scrophulous Syphilis, in its many forms, Ulcers, and Tumors.

Buy a dollar bottle and be cured. Use as per directions in all cases.

JOHN BULL, M. D.

Manufacturer and Vendor of the

CELEBRATED

SMITH TONIC SYRUP.

FOR THE CURE OF

AGUE AND FEVER.

CHILLS AND FEVER.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the cure of Ague and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed. It is carried out in great many cases, a single dose has been sufficient for a cure. And whole families have been cured by its use. It is, however, prudent, and in every case most certain, to use it for three or four days, to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEG-ETABLE FAMILY PILLS will be sufficient.

BULL'S WORM DESTROYER.

Extract of a Letter from Georgia.

WILKINSON, WALKER COUNTY, Ga.,
June 29, 1866.

Dr. John Bull—Dear Sir: I have recently received your Worm Destroyer, and find it wonderfully efficacious. It has not failed in a single instance to have the worms expelled from the system. I am doing a pretty large business, and have had to use it for some time.

I am, sir, respectfully,
Yours truly,
JULIUS P. CLEMENT, M. D.

P. S.—So unqualified and numerous are the testimonials in favor of my Worm Destroyer, that newspaper space is entirely too small to tell its merits.

It is an infallible remedy for Worms. Try it and be convinced. Send my journal for a more full description. JOHN BULL.

BULL'S SARSAPARILLA.

St. Louis, April 23.

Dr. John Bull—Dear Sir: Knowing the efficacy of your Sarsaparilla, and the healing and beneficial qualities it possesses, I used you the following statement of my case. I was wounded about two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hip. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in any other medicine. I wish that it were given to me. Please expedite a half a dozen bottles, and oblige.

Yours truly,
GEORGE E. JOHNSON.

P. S.—Mr. Johnson was the son of a killed soldier. His mother recommended to her friends, and for many years used my Sarsaparilla with perfect success. In Scotland and Peter-sore, Mrs. Johnson, who has been cured of almost all her ailments, and is now a healthy woman, has written me a letter of commendation and advice to your case. My Journal contains certificates of eminent persons, ministers and medical men—who are known here in the community for integrity and veracity. I have recently received a most remarkable certificate from an eminent gentleman of Louisville.

The Temperance Society of Mayfield,

the "Good Templars," says the Paducah

Herald, seems to be in a very flourishing

condition. On Saturday night last the

Order turned out in procession, with

music, transparencies, etc., and made a

beautiful show. They marched to one

of the Churches, where they were ad-

dressed in an eloquent speech by Capt.

C. L. Randle, Commonwealth's Attorney,

who was in Mayfield in attendance upon

his duties in the Circuit Court.

General Seward III in India: Calcutta, (March 20) Correspondence of The London Times.

Mr. Seward, on his way over the country, was taken ill at Allahabad, and was unable to dine at the United Service Club as he had agreed to do. I believe the illness was not very serious, but the hot weather set in, and a man of Mr Seward's years, and from a climate so different as he was used to, it is not surprising. I refer to the subject more particularly to quote a passage from the honorable gentleman's letter to the Club. After a very handsome acknowledgement of the invitation of the Club, &c. Mr. Seward writes: "I am glad to hear that the service in India, in all its departments commands my highest admiration, and induces on my part fervent wishes for the welfare, prosperity, and happiness of all those who are engaged in it." It is quite true that this is no more, than the duty of India administration, but it ought to be of value as the view of one who knows something of what Government is both in peace and war.

A Snake Story.

A correspondent of the Louisville Ledger writing from Stanford says:

"I learned this morning that a colored woman in the suburban town of Maxville had snakes visibly creeping under the skin, and being naturally curious and inquisitive, she had torn off the skin, and proceeded to her abode, and found the unfortunate victim in a comfortable garret, in a suffering condition, though very loquacious on the subject of her malady. She had a large black snake, which was buried beneath the skin, though perceptibly visible when moving. On being touched it moved from one breast to the other, occasionally coiling on the breast bone. She told us that she had other snakes in her body, one of which was in her foot, one in her side and very near the surface, without being in the abdomen. The snake which we saw in her breast seems to be about eight inches long and one half inch thick. She said she had been in the habit of eating and seems gradually wasting away. Why don't the Stanford physicians examine into this affair?"

Water Telescopes.

The people of Norway carry in their fishing boats a water telescope, or tube three or four feet in length. They immerse one end in the water, and then looking intently through the glass, they are enabled to perceive objects ten or fifteen miles distant. The telescope which they were within a few feet of the surface.

So when they discover plenty of fish they surround them with their large nets, and in a few minutes have taken hundreds of a haul, which were it not for these telescopes, would frequently prove precarious and unprofitable fishing. This instrument is not only used by the fishermen, but is also found in the navy and coasting vessels.

MINNESOTA offers a greater variety of attractions to the sportsman than he can find in any other section of the United States. The diversity of magnificent scenery, the variety of bluffs, dense forests, the oak openings and blooming prairie, the countless lakes and rivers, all filled with game within easy reach of St. Paul, has no equal within the limits of any other State in the Union; and if the sportsman be an ardent admirer of nature's splendors, he will find almost enough to satisfy him without the addition of sport for his rifle. Minnesota has an area larger than that of the States of New England, and of which more than one-half of this territory is more or less occupied by the choicest game. All west of the Mississippi, except the "high woods," consists principally of rolling prairies and table lands, dotted with ferns and timber, and including a game park, while east of the Mississippi there stretches a wide extent of agricultural lands and pine forests, with broken highlands toward Lake Superior. "Scores of writers have paid tribute to the splendor of Minnesota scenery."—*St. Paul Press*.

PROSPECTUS

OF THE

LOUISVILLE LEDGER

ON Wednesday, the first day of February, 1871, commences the first number of the Louisville Ledger. It has been long after published daily and weekly in the city of Louisville by the "Louisville Ledger Publishing Co." who were organized and organized as to place the enterprise on a solid financial basis and ensure success. The new paper will be edited by a man of ability and men of experience, in every department, and shall, in all respects, be equal to the best of the following being the leading features:

I.—It shall be a Democratic paper: an organ of the Democratic party of State and Nation. It will give to its readers a regularly constituted candidate of which it will earnestly defend and support. Its policy will be to keep up the circulation as a means of free intercommunication in the proper discussion of measures as well as men. It will not shrink from the consideration of "dead events," but will be confined to living, practical, vital questions. While it will yield nothing of principle, it will keep pace with the march of progress, and advocate only such liberal, comprehensive, and enlightened-like policies or measures as will tend to bring about the good to the country. And promote the success, unity, and purity of the Democratic party. It will not shrink from attacking and defending Democratic principles and advocating the success of Democratic candidates. It will not shrink from attacking and defending Democratic principles and advocating the success of Democratic candidates. It will not shrink from attacking and defending Democratic principles and advocating the success of Democratic candidates.

II.—It will be especially devoted to conserving and building up the political, material, and moral life of the State of Kentucky, the City of Louisville, the State of Kentucky, and the Southwest.

III.—The Newspaper constantly presenting the latest important and interesting news—national, local, state, and general—having secured every desirable telegraphic facility, both for the regular and special dispatches.

IV.—The Family paper, containing carefully prepared and selected literary and miscellaneous matter, appropriate for families, schools, churches, and public institutions. It will elevate the mind and elevate the taste; it will excite everything of an immoral tendency, and endeavor to suppress it. It will purify or stimulate the desire for the sensational.

V.—It will be a Commercial paper, and will afford to its patrons and the public the most reliable information upon commerce and the markets, sparing neither labor nor expense in the gathering of facts.

VI.—The Railroad interests of the country having grown into an importance scarcely accounted for by the fact that the Louisville edited Railway column will be kept up.

VII.—Among other special features will be—
Legal department, confined to a competent lawyer, which will contain all current legal news, abstracts and reviews of decisions, important opinions in full, etc.; a full and reliable paper on the subject of Education. Educational department, especially designed to stimulate greater efficiency in the various schools of the State. A section on the city, and promote the cause of education generally; the Farm, the Garden, the Orchard, the Vineyard, the Beehive, and the Poultry Yard. In the Weekly there will receive especial attention. The Weekly edition will be published in quarto form, containing eight pages of matter within the reach of all classes of population, relying rather upon a small individual profit on a large subscription than upon a large profit on a few subscribers, hence the adoption of the following reduced rates of subscription.

Dr. Powell's James' Bayon Packet was in port last Wednesday.

Several of our saloon keepers were fined Monday last for violation of the Sunday law.

Vigorous efforts have been made by our city officials to enforce the hog law, but up to this time the hogs hold the battle ground.

The agent of "Gould's Lottery," informs us, that it is the desire of the proprietor to have his July Drawing at Hickman.

Our young friend, J. Clay Coleman, formerly of the Bowling Green Democrat, was in the City, Thursday. He is the traveling agent for Gould's Lottery.

The Good Templars organization of Hickman has determined to have a grand barbecue and turn out at an early day. The day, etc., will be duly announced.

Lost in a Swamp.—A man charged with stealing horses in the neighborhood of Pierce Station, Weekly county, Tenn., was paroled by some citizens last week, and though overtaken, was "lost in a swamp" near Columbus, Ky.

Some citizens of Hickman and Fulton counties are to circulate a petition pledging the signers not to vote for or support any candidate for public office, who is a confirmed drunkard.

Our friends, W. R. Walker and C. A. Hoccombe, each, have their Soda Fountains, a operation. They are decidedly the attraction of the town this warm weather.

Our well known fellow citizen, Major J. A. Landerdale, has been prostrated by severe indigestion, the last two weeks, at the residence of his father, near this place. He is slowly recovering.

Col. Ed. Crossland, member of Congress for this District, is now enjoying better health than for several years past.

Mr. J. G. Ford, one of the talented editors of the Union City Herald, visited us the present week. He has the presentation of a good newspaper man.

The next Annual Conference of the Methodist Church for this the Memphis District, is to meet at Trenton, Tenn., Nov. 2, Bishop Kavanaugh, presiding.

The Good Templars.—The Right Worthy Grand Lodge of North America, Independent Order of Good Templars, will meet in Baltimore next Tuesday, at 10 A. M. and will remain in session three or four days.

Public Rooms.—Attention is called to a communication on our first page, on the subject of Public Rooms. The writer is one of the oldest as well as ablest citizens of Fulton county.

Drunks.—The disjuncted times, or some other causes, has produced more than the usual amount of "drunks" in Hickman the present week.

Building.—The only department of trade in Hickman which exhibits anything like its customary activity. The carpenters are all busy, and have the promise of continuing so for some time.

Our young friend, Dr. Alex. Faris, is absent from the city, with the deliberate intent and purpose of committing matrimony. He is by this time the happy bridegroom of Miss Florence Golder, formerly of this place. May happiness shed all its miracles of beauty and joy upon their lives.

A Serenade.—We are under obligation to our friends, Messrs. Fortine, Blanton, Bynon, Mel. Millet, Judge Wilson, and Mr. Schillein, for a most delightful serenade, Monday night last. Thanks, gentlemen, may we each enjoy life as sweetly as we did your music.

Columbus Election.—The Democratic of Columbus, Ky., are very jubilant at this time. At the election, on Monday last, for city officers, they carried three out of the four general offices, including their Mayor and a majority of the city council.

For Cool Drinks, go to JOE'S.

"Current Literature."—Scribner's Monthly for June is the finest number yet issued by these enterprising publishers, and the best monthly now published in America. The illustrations are the highest models of art, and the literature of its inviting pages bears the impress of the master skill of Timothy Titchum and of the highest culture. The June number is a brim-full of good things. For sale at Frenze's.

Best Quality of Initial Paper and Envelopes, at WM. FRENZ'S Book and Stationery Store, on Clinton Street, opposite J. B. Plant & Bro.

Negro Testimony.—We hear that Judge A. B. Boon, of the Judicial District, has declined his intention to receive negro testimony in his court, in future, should it be offered. Nearly all the Judges in Kentucky are arriving at the same conclusion.

End of French Civil War.

It has been a pretty long time coming, but the collapse of the Paris insurrection may now be considered almost an established fact. In the recklessness of desperation, hot-headed Reds may keep up a spasmodic resistance in the streets of the city, but it cannot be otherwise than a criminal shedding of blood. The Government troops are now in a position to compel submission, leaving the insurrectionists no alternative. The days of the Commune are numbered.

OUR COUNTY FAIR.—The Directors of our County Fair held their first regular meeting this season Saturday last. A committee was appointed to fix up preliminary list, and other preliminary business attended to. The entire Board appear disposed to offer as liberal premiums as can be possibly afforded. One or two valuable premiums will be offered by citizens of Hickman. It is understood, also, that our home stock raisers will offer a premium on fine cattle, etc. The committee also appointed a committee to wait on Gen. Jno. C. Breckinridge, and invite his attendance at the Fair.

FOR FRENCH MUSTARD, go to JOE'S.

Hon. John W. Blue, of Crittenden, is called upon to become a candidate for the State Senate in the district composed of the counties of Crittenden, Caldwell and Hopkins.

GEN. JNO. C. BRECKINRIDGE has been invited to deliver an address before the Agricultural and Mechanical Society of this county, at its annual exhibition in September. It is understood that Gen. Breckinridge contemplates visiting some of his many old supporters and friends of West Kentucky and Tennessee, and that he will probably accept the invitation.

Just Received.—2000 Halls Wall Paper, (new patterns), 300 Paper Window Shades, 2000 Blinds.

For sale at the lowest market price by WM. FRENZ.

The last number of the McKen's Times says that the fair held at that place has been a decided success, and that large and imposing crowds have been in attendance. The display of fine stock was highly creditable, and many of the turn-outs in harness would have done credit even to the blue grass regions of Kentucky and Middle Tennessee.

FOR CHEWING TOBACCO, go to JOE'S.

The Murray Gazette proposes to publish a history of the Geographical of Southwestern Kentucky and west Tennessee. It will be compiled by an excellent writer.

FOR LAKE ICE, go to JOE'S.

THE DISTRICT CONFERENCE.—A District Conference of the Methodist Church is now in session in this place. Elder Carter, preached the introductory sermon Thursday night, to a very large audience. The regular session of the conference was opened at the Methodist Church, Friday morning, and is now in session. Bishop McTear, arrived Friday morning, and is presiding. In our next issue, we shall probably publish a full report of the proceedings.

Services for the occasion.—Saturday at 11 A. M., preaching at the Methodist Church, by Bishop McTear.

Sunday, 8 1/2 A. M., Love Feast; 10 A. M., preaching by Bishop McTear, followed by Ordination of Rev. Ely Bynon.

Sunday at 3 P. M., a Sunday School mass meeting at the Methodist Church, to which all are invited. Various addresses will be made.

Sunday 7 1/2 P. M., preaching by Dr. McTear, followed by celebration of the Lord's Supper.

MUSICAL BOXES. Violins and Viola, Banjos, Guitars, Banjos, Accordeons, French Harps, and a general line of musical merchandise of every description always in stock, at greatly reduced prices. Wm. Frenze, 72 1/2 N. Clinton Street, Hickman, Ky.

COTTON AND TOBACCO.—A large amount of Tobacco is being shipped through here via Nashville and North-western Railroad to New Orleans. We understand it is mostly from the upper Cumberland.

A right smart sprinkle of Cotton is also, arriving at Hickman. The consequence is that trade has been a shade better.

GREAT REDUCTION IN PRICES OF Locking Glasses, Pocket Mirrors, Pictures and Picture Frames, all sizes, shapes and styles, for sale cheaper than ever by WM. FRENZ.

Many land owners in this county complain of depredations on their timber. The laws of Kentucky are very stringent on this point, making it a penal offense, and there may be some troublesome litigation.

GOLDAIDY'S MONTHLY DRAWING.—Mr. J. K. Lane has accepted the agency of J. R. Goldaidy's gift enterprise, the drawings of which take place on the fourth Monday of each month. The next drawing takes place on Monday next, at Louisville. Capital prize, \$5000; second, span of horses and carriage, \$1200; third, set of diamonds, \$1200; fourth, Broadway piano, \$500; fifth, gold watch, \$200; sixth, combined reaper and mower, \$100, together with five hundred and forty-four other valuable prizes, consisting of gold, diamonds, gold and silver watches, silver ware, furniture, sewing machines, carpets, musical instruments, etc. It is quite likely one of the drawings will take place in Hickman, in a short time, and our citizens will then have an opportunity of witnessing the fairness with which they are conducted. Mr. Lane will have tickets for sale at his furniture store and his saloon, and we would advise those of a speculative turn of mind to buy early if they desire a chance. Tickets \$1, six for \$5.

Nashville vs. Hickman.

The Merchants of Nashville have furnished the following figures to the Union and American, designed to show the difference between the Nashville and Chattanooga Railroad against Nashville:

The rate on corn from Nashville to August is 58 cents per 100 by the printed tariff; the rate on corn from Hickman, Ky., via Nashville and Northwestern Railroad, through Nashville, is 57 cents per 100 lbs., or one cent less than from Nashville, and another railroad to the river. The rate from Hickman, Ky., to Montgomery, Ala., is 43 cents per 100 lbs; from Nashville 53 cents; from Hickman to Selma 48 1/2 cents; from Nashville to Charlotte, N. C., 67 1/2 cents; from Nashville to Jacksonville, Fla., 54 1/2 cents; from Nashville to Live Oak, Fla., 82 1/2 cents; from Nashville to Jacksonville, Fla., 74 1/2 cents; from Nashville 77 cents.

NEURO SHOT.—A negro engaged in the criminal act of attempting to lift some spring chickens out of the St. Charles Hotel coop, Thursday night, was shot at, and it is supposed from his yells, wounded, though he made his escape. Ordinarily the stealing of spring chickens is only punishable by sentence to the penitentiary, but to do so on Conference week, is a crime of the highest character.

WILLIAM FRENZ has just received a large and splendid stock of Gold, Orde and Jet Jewelry of every description, consisting of pair of Ladies Jet and Plated Sets, Bracelets, Necklaces, Gold and Plated Rings, Buttons and Charms, Gold Pins, Studs and Sleeve Buttons, Watch Chains, and Best Chains; Bed, Feather and Wagon Buckles, &c., all of which will be sold to customers at less than city prices. Call and see for yourselves.

ROBBERY AT MOSCOW.—The dwelling house of Captain Gid Binford, at Moscow, was broken into, and robbed on Saturday night last. Three burglars did not leave a change of clothes for Gid. A horse or two was stolen in the neighborhood the same night.

FOR ALL KINDS OF FISHING TACKLES, go to WM. FRENZ.

LARNEY.—Alfred Larney, was arrested near this place on Saturday last charged with stealing a gun and pistol. He was brought before the City Judge, and held to bail in the sum of two hundred dollars for his appearance at the September term of the Circuit Court. Committed to jail.

FOR GOOD CIGARS, go to JOE'S.

THE RIVER.—No overflow. The news from upper rivers silence the apprehension of an overflow. All upper streams are falling. The river at this point is at a stand, and must commence receding before many hours.

THE WHEAT.—The report of the wheat crop this week is much more favorable than last. There is considerable rust on the blade, but none on the stalk.

AN OLD FRIEND IN BAD HARNESS.—We notice that our old friend A. L. Bonham, has taken charge as editor and publisher of "Chronicle," a radical paper published at Hillsburg, Ky. A clever writer, and bawling his politics, will make the "Chronicle," a first class paper.

SUMMERS of the Columbus Dispatch. is pouring hot shot into one George Watson, the late Radical candidate for Mayor of Columbus. Watson threatens to kill Summers, unless he desists, but our worthy neighbor daunted continues, his fire. Go it Summers, and if you need an undertaker, send down.

A CORRESPONDENT of the Hickman Courier wants a convention held in this Representative district, to nominate a candidate for Representative. We are quite willing a convention be held, but see no necessity for it at present. Why not give the candidates a free fight, so long as they are in danger from the opposite party?—Columbus Dispatch.

Agricultural Barbecue.—We understand that the good people of the county of Gibson have in contemplation the giving of an agricultural barbecue and barbecue, at Trenton, early in July. It is calculated to have a grand reunion and a fine time generally among the sovereigns of the soil.

Ranyon's Hot Cholera Medicine.—Our friend W. R. Walker, Druggist, has bought the exclusive right for Fulton County to prepare and sell this celebrated remedy for Hot Cholera. This specific is said to be an almost certain cure and prevention, and is so recommended by many of the largest hog raisers in the State. Mr. Walker is alone entitled to make and sell the medicine, and all wishing to give it a trial must apply to him.

THE Italian Chamber of Deputies has adopted a bill making provision for compensation to the city of Florence for the transfer of the Capitol to Rome. Our Washingtonians will make a note of this, and cite it as a precedent when our Federal Capitol is removed to St. Louis.

Non-Committal papers in Canada are non-committal upon the treaty of Washington, while the opposition journals oppose it with great bitterness. The Toronto Globe declares the treaty will never be sanctioned by the Canadian Parliament.

PREPARATIONS for the International Convention of the Young Men's Christian Association, which is to meet in New York on the 24th inst., are nearly completed, and the preparations are that it will be the most impressive Christian Convention held for many years. Among those who will be present are many of the most prominent names in the religious and association work.

GEN. GRANT'S system for turning out of office every man who is not for Grant for the next Presidency, has been introduced in St. Louis. All the clerks were called up and interviewed as to their political predilections, and six or seven of them who could not go to Union have been invited to go into some other kind of business. If Grant can't make friends through administration he is determined to have them through fear.

A Band of Maskers Meet a proper Reception.

MEMPHIS, May 17.—Last Friday night a masked party, numbering about forty, entered the town of Pontotoc, Mississippi, for the purpose of driving off Colonel Flournoy, editor of the Radical paper who had been warned to leave. On entering the town they were met by a party of citizens, who asked their intentions, and were answered by a volley, which the citizens returned. One of the maskers fell from his horse, the others fled. On picking up the wounded man he was found to be a young man named Dillard, residing near there. He presently refused to disclose the names of the others, and soon after died. The next morning a number of persons were found to have left the country, while several horses, with trappings which had evidently belonged to the masked party were found near.

Grant for a second Term.—The Philadelphia, May 17.—The Republican State Convention of Pennsylvania, to day adopted resolutions endorsing Grant's financial policy, his fidelity to the principle of human rights and the spotless integrity of his administration, and nominated him for the Presidency in 1872.

Terrible Fate of a Jersey In Newark, several years ago, Jacob Bess, a prosperous baker, lost his handsome wife; she had eloped with a too intimate friend, her husband. But as much as therefore she had led a most exemplary life, and was surrounded with every reasonable home comfort, her disappearance caused much of a sensation. The bodies, partly dressed, were found floating in blood, and a discharge of six barrel revolver near by.

Register of the Land Office.—For the information of the public in regard to the ballot for Register of the Land Office in the late Democratic Convention, we will state that several days since Mr. Dawson addressed a note to the State Convention Committee, requesting an investigation of the matter by them, and an announcement of the result—accompanying his request with an assurance that if he were not, beyond all question, the choice of the convention, he desired to know the fact that he might retire from the ticket; that he would not occupy an equivocal position; that he regarded the duty and the harmony of the party as paramount to all private ambition or personal preference. Being himself a member of the committee, he was, of course, resigned. The high character of the other gentlemen composing the committee is an ample guarantee that just and proper action will be taken in the premises in due time.—Louisville Ledger.

Killed by a Chicken.—The Williamson Journal of yesterday has an account of the death of Mrs. Sarah Johnson, of that county, which was caused in a very singular manner. Only a few days before her death Mrs. Johnson, who was at the time in perfect health, went out into the yard for the purpose of separating a couple of chickens which were engaged in a furious fight. She caught one of the cocks, and so doing was slightly wounded by the long, sharp spur, or gaff. From this wound resulted lock jaw, which terminated in death. She was the wife of Mr. Clifton Johnson, who has for a long while been a resident of this county. The shock produced upon the already enfeebled frame by the sudden death of his wife was more than Mr. Johnson could bear. He commenced sinking at the time, and died a few days later, his body "shuffled off this mortal coil" and the two corpses were taken to their last resting place in the cemetery at Bethesda, and laid side by side.

How Poor People Live.—Alexander II. gets \$2,250,000 an annually, or \$25,000 a day. Francis Joseph receives \$4,000,000 annually, or \$12,222 per day, with a large allowance of honorarium.

Frederick William is not paid quite as well as his neighbor over in Austria, but manages to keep up appearances on \$3,000,000 a year, or \$3,210 per day, and Victor Emmanuel manages to get along in Italy on \$2,400,000 a year, or \$7,849 per day.

Victoria receives only \$1,200,000 a year; but she owns several large dairy farms and is said to be alike interested in building up good and permanent institutions; and to the generous assistance of the poor and the aged, we must add, especially look for encouragement, promising that our whole time and talents shall be devoted to their enterprise.

AN OLD DESPERADO CAUGHT.—John Ryan, the notorious ruffian, who murdered Miss Sarah Owen, residing near Mayfield, Ky., in 1863, and admitted a number of daring robberies in Southern Kentucky about that time, was arrested at Arkansas a few days since by Samuel Orr and Lewis Frankland, of Mayfield, who started for that place with him on the 16th.

DID HE?—The following is published in an exchange as a "rich joke," and its richness will be apparent to all upon learning that Henry Ford is an editor of the Iowa County Herald: Upon a late electioneering tour he slept at a farm house with two others in the same bed, and the next morning the lady of the house inquired how they slept. "First," answered one, "I slept behind. Bill slept before, and Henry Ford in the middle." "Did he?" exclaimed the old lady.

PRESIDENT GRANT has promised that the military shall be paid in South Carolina to suppress the Ku Klux, and that examples shall be made of some of the members of the Klan in that State, to strike terror to those in other sections. A year ago everything was quiet in South Carolina, and would have so continued had not Governor Scott organized the negro militia and put arms in their hands with a view to defeat the Reform candidate for Governor, and to elect him self. The brutality of the negroes made it necessary for the whites to organize for self-protection. This is the cause of the troubles in that State, and they can be suppressed only by the disuse of the military to carry elections.

A NEGRESS named Lizzie Williams, tried and convicted of murdering her child in Louisville, is to be hung on the second day of next month. This we believe will be the first female ever executed in this State.

A Railroad Centre—South Western Kentucky.

The counties of Kentucky bordering on the Mississippi and Ohio rivers are the terminal of a dozen or more railroads, existing and prospective. The connecting, or centering of these great thoroughfares at some point in West Kentucky is a foregone conclusion, and the subject is eliciting the attention of the people and also, the railroad companies. Cairo, from its proximate location may attract this centre; and, certainly might if her people had the necessary capital and enterprise, which they have not. The competing points are Paducah, Columbus, Hickman, and though outside of the State, we include Union City. The city of Paducah, because of its larger capital and more enterprising citizens, has distanced all competitors to the move so far, and yet to begin with was the most disadvantageously situated of any. Cairo has a better river location, but her railroads are not air lines and not built for the rapid, quick transit of today. Columbus, at present, has a bright prospect and but for the uncertainty of her present railroad connections, would loom a head of all others. It is said the Mobile and Ohio Railroad must ultimately find its real terminus at Cairo, and the Iron Mountain at Hickman or with the Nashville and Northwestern road. The different railroad interests have held inducements to these different points, and will no doubt be controlled by reciprocal inducements. Unquestionably, the Nashville and Northwestern Railroad is the great feeder, and might command its connections with the other roads, in fact, command the situation, if it was under a proper management. This last proposition is affirmed by all of our leading railroad men, and in order to the accomplishment of this purpose, a new company is proposed to be organized with ample capital, to enable the Nashville and Northwestern to even dictate its connections. Precisely, as the Pennsylvania Central, Illinois Central, or Louisville and Nashville, now control their contiguous lines, so may the Northwestern. The towns of Columbus, Union City and Hickman, are mutually interested in the success of this new company, and instead of regarding themselves in the light of rivals, should unite their capital, energy and enterprise. If these railroads of our lower counties are ever diverted to Paducah or Cairo, the rail road benefits of either of the above points will be merely nominal. Responsible gentlemen, and men of capital, are now attempting to organize such a company, and have great promise of success. Agents, properly accredited, are to have a consultation with the management of the Iron Mountain road next week, and if a reasonable combination can be effected, we have little doubt, but that the ground work for a great through route from St. Louis to the Atlantic will be laid.

The Cincinnati Railroad.

The lull in the excitement in regard to the Cincinnati Railroad charter, bids now to be broken, and the question will form an important feature in the legislative canvasses in lower Kentucky. We learn the friends of the Cincinnati charter have candidates now in each county, and are determined to make the contest warm. This will no doubt necessitate the opponents of the charter in defending their position, and in supporting candidates of their own view. The question is already being discussed in the Second and Third Senatorial districts, and we suppose will necessarily be forced as an issue in this District. Indeed, it is hardly possible, that a question which consumed so much of the time of the past session, and likely to be equally as conspicuous in the next, should be entirely ignored by aspirants for office. In fact, the issue should be discussed. It is reported, though we know nothing as to its correctness, that Major Hale, favors the granting of the charter, and Capt. Clark opposes the same. There is, at least, one who will call the candidates out on this subject, and assert that our next representatives must go to Frankfort instructed on this question, direct from the people.

The Convention.

Numerous inquiries have been made of us in reference to the probability of a Convention of the Democracy of Hickman and Fulton counties for the purpose of nominating a candidate for the Legislature. Suggestions to this effect have been favorably considered by the Executive Committee of Fulton county, and their action submitted to the Hickman county Committee for co-operation. The calling of a Convention, therefore, depends upon the action of Hickman county, and we presume the action of that Committee, will be largely controlled by the desire of the electors in that county.

Col. Geo. W. SILVERFOOT.

Col. Geo. W. SILVERFOOT, and the candidates for the Legislature, address the people at Rock Springs, in this county, to day. The Negro question, and the Cincinnati Railroad charter, will no doubt be the principal features of Col. S.'s speech. His ultra views on the first are just into the hands of the Radicals, and at their State Convention this week they incorporated the latter in their party platform. We don't question the Democracy of such men, but the result of their course is certainly against the interest of the party.

Negro Testimony.

The body of the Democracy of Kentucky are now agreed as to the policy of admitting negro testimony in our State Courts. The action of our late Democratic State Convention fully justifies this conclusion. Nevertheless, there are local politicians, who are perpetually harping on the question, and seeking to make a point of it in local elections. Not only the National Democracy, but the Democratic party of Kentucky, are honestly pledged to the policy, and we trust the impracticable war against it will now cease. In fact it is no longer a question. The Kentucky judges have decided the matter by admitting such evidence, and thereby, removed any urgent necessity for action on the part of the Legislature. Four of our judges have so decided, and two others it is well understood, will do so. Whether our Court of Appeals reverse or affirm these decisions, there can be no question that the Supreme Court of the United States will sustain them. Negro testimony in our State Courts, is therefore an accomplished fact.

The Canvass.

The Frankfort *Commonwealth* makes the announcement that we are to have a vigorous canvass of the State this summer. It gives the programme marked out for the candidates for Governor and Lieutenant Governor as follows: Governor Leslie will, early in June, start out, taking the mountain first, and then going to the western portion of the State. Mr. Carlisle will begin in the first or second district and move eastward, while the other candidates will also have their circuits assigned them. The *Commonwealth* is also gratified in being enabled to announce that, in addition to the canvass which will be made by the nominees of the State Convention, Hon. James R. Beck has consented to speak in behalf of the ticket in eight or ten counties.

Coming to their Senses at Last.

Don Platt (Radical) says of the negro in white schools in Ohio, that "it would be a great outrage and probably result in the destruction of the common school system. White parents will not consent to have their children sent to mixed schools, and in this they are perfectly right. The student of Blackstone, or the student of any sort, has been taught that there are certain crimes considered crimes in themselves, made so by the law of God and the law of nations; there are other crimes against that law, made such by the municipal ordinances, or more positively still by long custom, which comes to be a second nature. To this last belongs the attempted social equality to be brought about through the mixed education of the two races. No man can read his child to one of these schools without a degradation, and the evil which comes of this violation of our social laws is as positive and well defined as that which comes from the commission of a crime against the law of God. The parent who sends the child into the society of negroes receives in his or her moral nature as much punishment as if the same child had been sent among immoral characters."

JUDGE COFER AND NEGRO TESTIMONY.

The *Courier Journal* publishes a lengthy charge of Judge M. H. Cofer, of the 7th district of this State, instructing the grand jury to admit negro testimony in their investigations. Judge Cofer says the negroes are citizens, and the right to testify is necessary for their protection and enjoyment of the rights guaranteed by the Constitution of the United States to all citizens, and the State judge is bound by the clause of the State Constitution which recognizes the Constitution of the United States as the supreme law of the land. Judge Cofer was Provost Marshal General of Joseph E. Johnson's army of the late Confederate States.

The Louisville Jeffersonian Democrat remarks, says the Paducah Kentuckian, of Gov. Leslie:

"There is but one thing we cannot say which we would like to say about him. That he thoroughly understands the philosophy of the States-Union system of government between independent republicans States."

And now we think Gov. Leslie ought to die down and die, for the editor of the Democrat is about the only man in the country who does understand this philosophy; and what is the use of living in such ignorance.

The Paducah Herald is laboring to defeat Col. Holt, for the State Senate, in the 3d District. The Murray Gazette styles the Herald a "foreigner," and thinks the District does not need its aid.

The Courier may also be classed as a foreigner, but, we do believe, the Third District would honor itself by re-electing Col. Holt.

Tax Paducah Herald is greatly pleased with the Democratic platform, but, especially reserves to itself the right to repudiate anything wrong in it, should any turn out. It don't altogether admire the platform as expressed, but consoles itself that its ultra views were understood and meant. Nevertheless, it thinks it will do to beat the Radicals with, and that is sufficient. The Herald's construction of the platform is like the lecturer's explanation of the word "phenomenon."

"Maybe you don't know what a phenomenon is. Well, I'll tell you. You have seen a cow, no doubt. Well, a cow is not a phenomenon. You have seen an apple-tree. Well, an apple-tree is not a phenomenon. But when you see the cow go up the tree tall foremost to pick the apples, that is a phenomenon."

Mr. Mort Russell, well known to the visitors of Reelfoot Lake, died Thursday last.

THE COUNTRY SAFE.

The Negroes Riding in the Street Cars in Louisville.

The announcement that the negroes were for the first time to be allowed to occupy seats in the street cars on yesterday, the *Louisville Ledger*, was received with not a little disgust by a large number of persons, and with some apprehension of ugly collisions by others. At an early hour yesterday morning, youthful bums living in the vicinity of streets traversed by the cars, were out in force ready for anything that might turn up; and some of the dullest of them anxious for the expected row. Rumors were rife that men who were believed to be mighty on the muscle had been fixed for the occasion, and a lively time was anticipated. After a diligent search the following occurrences were the only matters of interest that could trace their origin to the new order of things just inaugurated:

About 11 o'clock A. M. a number of youths, arrayed in white skins and clean shirts, assembled at the corner of Walnut and Garden streets for the purpose of seeing the sights that it was believed would be manifest along Walnut street during the day. A dozen or two of darkies, who had taken seats in the cars on that road, made it convenient to leave the cars in the neighborhood of these young scamps, but there was nobody hurt.

While a car in which a negro was seated was passing the corner of Fourth and Walnut streets, an unknown white man, who was passing in a buggy, fired a pistol at the negro, but did no harm. It is stated that the negro was seated in car "25." There were no traces of a bullet left anywhere on the car or in the neighborhood.

About 9 o'clock on Saturday night three negroes entered a Main-street car and rode up as far as Adams street when they were set upon by some boys who made such demonstrations that the negroes left at once.

A negro passenger on one of the Main-street cars was lifted from his seat and struck heavily against the street, causing a slight bruise on his brow.

A negro named Covington, who lives on Marshall street between Campbell and Wexel, was hit on the head by some unknown persons while riding on the Walnut streets road in the afternoon, and received a cut over his left eye from a stone or some hard substance thrown at him.

In many of the cases mentioned above the white boys are to be censured for their conduct, which cannot be justified, at the same time the action of some of the negroes was of a character to provoke assaults.

W. C. CLARK, Esq., of Graves county, we see announced in the Mayfield Democrat, is a candidate for the State Senate in this District. Mr. Clark was a candidate against Col. M. Crossland last year for Congress. He is a man of first rate ability, and some experience as a legislator. Some suggest a District Convention, but one is hardly necessary, unless more candidates put in their appearance.

According to the Paducah Herald, the enforcement of the Sunday law, in that city, was quite an astonisher to those who had been in the habit of enjoying their morning toddies. The fluid could be procured for neither love nor money.

JUDGE COFER, one of our State Circuit judges, who has just decided to admit negro testimony in his court was a Colonel in the Confederate army during the late civil war, and did a heavy share of hard fighting for the South. Some "home patriots" will now call him "semi-radical."

The Radical Ticket.

The Radical Convention, which assembled in Frankfort, on the 17th instant, made the following nominations. The head of the ticket is admitted to be one of the ablest lawyers and public speakers in Kentucky:

For Governor, General Joo. M. Harlan, of Jefferson. Lieutenant Governor, George M. Thomas, of Lewis. Attorney General, General William Brown, of Fayette. Treasurer, General Speed Fry, of Boyle. Auditor, Wm. Kippin, of the Louisville Volksblatt. Superintendent of Public Instruction, Rev. W. E. Mobley, of Todd. Register of Land Office, John K. McCleary, of Rock Castle.

Our Candidates.

Col. Hodges, the senior editor and proprietor of the *Franklin Commonwealth*, has discharged his junior, because the latter indulged in unfair criticism of the Democratic nominees. Mr. Smith, the junior, affirms his responsibility for the article. Col. Hodges, though a Republican, has ever been esteemed by all parties a most fair man, as this extract shows:

"Of the ticket nominated we have this to say: We have known them all for years—some of them for many years—and we are gratified that the Democratic Convention have selected so many good men as their standard bearers. They had other good men also, who, doubtless, would have filled the various offices to which they were selected, but in our humble judgment, not better than those who have been chosen."

Our personal relations with all of the nominees have always been kind and social, notwithstanding we have differed politically. On our part we desire them to continue.

In conclusion we have only to say that while in years past many of them have acted with us politically—during Whig and Democratic times—yet, they have united themselves with the Democratic party, and we have united with the Republican party, believing, as we honestly do, that the Republican party is in the right, and the Democratic party in the wrong.

Grant and the Radicals.

The New York Sun consults its inclinations and prejudices, rather than its reason and intelligence, when it figures up a defeat of General Grant before the next nominating convention of the Republican party. But the statistics of the Sun are suggestive. Its calculation reads as follows:

Of the twelve New England Senators, all of Maine, Patterson, Cragin, Morrill of Vermont, Sprague, and Ferry are decidedly hostile to Grant's re-nomination; while four others, Hamlin, Wilson, Anthony, and Buckingham, are either against him or lukewarm in his favor; leaving Edmunds of Vermont his sole heavy supporter east of the Hudson.

In the Middle and Western States, Fenton, Trumbull, Logan, Schurz, Caldwell, Tipton, and Windom, are openly opposed to him; while he receives but a single endorsement from Scott, of Pennsylvania, Sherman, of Ohio, and Pratt, of Indiana.

Without going into the carpet-bag States, whose Senators exert little influence upon public opinion, we here have a list of twenty-one Senators, more than half of whom stand foremost in the Senate, and fourteen of them are resolutely bent upon preventing Grant's re-nomination, while the other seven would doubtless rejoice to see him overthrown.

Logan Versus Grant.

Special to the New York Sun; BOSTON, May 11.

The great struggle is over, and harmony reigns in the Grand Army, as I indicated in my dispatch of last night would be the case. General Ambrose E. Burnside was to day put forward as a compromise candidate, and was unanimously elected Grand Commander of the Grand Army of the Republic. Grant, who has been so long figuring to get the control of the organization for the purpose of using it to aid his re-nomination next year, was whipped at all points by the admirable tactics of General Logan. Up to midnight last night the custom house bunnies and other Federal office holders from New York were industriously working trying to make votes for Pleasanton, whom they urged Grant wanted elected; but the harder they worked for Pleasanton the more votes were made for Chipman, Logan's candidate, until it became apparent that if the contest was pushed Chipman would be elected and Grant laid out cold. Then the Grant men came in with a proposition to withdraw Pleasanton, provided Chipman would get out of the way. The Logan and Chipman men, who never really desired a contest, and were only acting in self defence, readily accepted this proposition, much preferring that the election should turn on the merits and popularity of the candidates than the wire pulling and intrigues of the Logan men. In the morning having been agreed to on all hands, the election of Burnside became a mere formality, and thus the Grand Army of the Republic was prevented from becoming a mere political machine. The election was conducted with great quietness, and after its conclusion and the inauguration of the new officers, the encampment adjourned.

The Great Toe Disease.

The toe disease is spreading in San Domingo. Over a thousand persons afflicted with it are in the hospital.

This is believed to be a sort of leprosy, a disease prevalent in various forms among the negroes of the West India Islands. In the English islands it is known as yaws, crab yaws, and coccabai. In some cases the extremities become shrivelled and gradually decay, finally dropping off joint by joint. In other instances the disease is limited to the sole of the feet, communicating with a small hard kernel, from which fibrous-like radiations grow. The foot swells, and becomes misshapen, and when a sore is formed the loss of the limb, and in many cases of life itself, follows.
